

Discovery Health formularies and benchmark pricing

Period: 2022 Q1 & 2

Expected implementation date: 1 January 2022

Performance Based Remuneration (PBR) is a voluntarily programme designed to provide additional remuneration to pharmacists for adhering to the DHMS formulary.

The PBR model aims to create *additional funding through broadening generic substitution* and thereby improving prescription price efficiency. It reduces remuneration for higher priced generic formulary substitutes and higher priced non-formulary generic substitutes. The inclusion of the latter, allows for a more affordable cross-funding mechanism.

While prescriber preferences may from time to time compromise adherence to the formulary, this is adequately compensated for in the PBR model by lower compliance thresholds. Depending on the availability of preferentially priced generics, there may not always be a generic replacement item on the PBR formulary.

PBR only applies to genericized items where pre-authorized and paid under the Chronic Illness Benefit for DHMS members.

Flagged items on pharmacy screens:

- Flagged items on pharmacy screens now include all formulary items, inclusive of non-PBR related items. Only PBR items attract variable PBR dispensing fees subject to PBR rules.
- PBR items can be identified by CDL formulary flags and formulary benchmark values.
- Although non-PBR items do not attract additional remuneration, it represents the Oncology and HIV formulary items. It may also represent other DH preferred items even non-formulary molecules.

PBR Exclusions:

- Claims for KeyCare, Delta plans, Non-SEP, HIV, oncology & couriers and non-genericized formulary items do not qualify for additional PBR dispensing fees and continue to be paid at the applicable standard network rates.

Benchmarks apply to generic groupers:

Formulary Benchmark is the unit price at which point adherence within means the Higher PBR dispensing fee applies. Exceeding the Formulary Benchmark Price means the Lower PBR fee applies.

- Reference Price Benchmark is the unit price of the best priced generic within a medicine class (generic grouper). Once qualifying for the month by reaching the formulary compliance criteria, the applicable PBR Variable Dispensing fee is retrospectively re-applied to the *Reference Price Benchmark per generic grouper* (the base value is therefore not SEP) of all claims paid from Chronic Illness Benefit.

For out-of-stock products, pharmacists must please substitute with alternative formulary or benchmark items as these do not need to be re-authorized. Where necessary, however, please obtain authorisation for a replacement item by submitting the 'Re-authorization request for substitution for out of stock formulary medicine' form to CIBAPFORMS@discovery.co.za or by calling 0860 44 55 66.

These forms are available on the ProPBM Communique webpage <https://www.discovery.co.za/medical-aid/propbm-communicues> or can be requested from the same contact address. You can submit per patient or attach a list of patients.
