

## Discovery Health formulary, PBR benchmark pricing and preferred products

Period: 2017 Quarter 1 & 2  
Expected implementation date: 17-Feb-17

Performance-based remuneration (PBR) is a voluntarily programme designed to provide additional remuneration to pharmacists for adhering to the Scheme's medicine list.

The PBR model aims to create additional funding through added prescription price efficiency and reduced remuneration for items that are not on the medicine list. The inclusion of a broader set of products allows for a more affordable cross-funding mechanism.

While prescriber preferences may from time to time compromise adherence to the medicine list, this is adequately compensated for in the PBR model by lower compliance thresholds. Depending on the availability of preferentially priced generics, there may not always be a generic replacement item on the PBR medicine list.

PBR applies to Discovery Health Medical Scheme for approved chronic items, excluding claims for KeyCare and Delta plans, as well as HIV, oncology and surgical items.

### We have enhanced what will be highlighted on pharmacy screens in future.

- Highlighted items on pharmacy screens will now include all preferred items both PBR and non-PBR related. Only PBR flagged items attract additional dispensing fees subject to PBR rules.
- Although Non-PBR items do not attract additional remuneration, it represents other formulary items and Discovery Health preferred items as indicated in the 'Item indicator' column. This includes:
  - Discovery Health preferred items for information purposes, indicated as DPI on this list. In future, this may present a new opportunity for additional reimbursement arrangements.
  - Discovery Health chronic and acute formularies for all plan types including what is excluded from PBR e.g. Delta Plans and KeyCare.

For out-of-stock products, pharmacists must please substitute with alternative medicine list or benchmark items as most of these do not need to be re-authorised. Where necessary, however, please obtain authorisation for a replacement item by calling Add-A-Line on 0860 44 55 66.

Format changes have been indicated in red.
