Chronic Illness Benefit medicine list (formulary) 2024

DISCLAIMER

The information contained in this document may be subject to change. The Chronic Illness Benefit (CIB) and the utilisation of the benefits and programmes associated with the Chronic Illness Benefit is subject to specific conditions and rules. Members must ensure that they are familiar with these rules and conditions. The Scheme rules are available on our website at www.discovery.co.za under Medical Aid > About Discovery Health Medical Scheme.

Any instruction or advice we give about medicines and the management of your condition is intended as a supplement to, and not a substitute for, the knowledge, expertise, skill and judgement of your doctor, pharmacist or other healthcare professional. You may need to get your medicine from a designated service provider (DSP) to avoid a 20% co-payment. Visit www.discovery.co.za under Medical Aid > Find a doctor or click on Find a provider in the Discovery Health app to find providers in our network.

Discovery Health Medical Scheme reserves the right to change the benefit at any time. We will communicate any changes to the way we pay medicines when we make these. The latest version is always available on our website at www.discovery.co.za under Medical Aid > Find documents and certificates.

Nominate a primary care GP for the management of your chronic conditions

There is overwhelming medical evidence that patients experience improved health outcomes when their primary care is coordinated through a single primary care GP. For all health plans except the Executive Plan, you and your dependants need to nominate a primary care GP for the effective management of your chronic conditions.

When you visit your nominated network GP for the management of your chronic condition, we'll cover the consultation in full. If you see a GP who is not your nominated primary care GP, or your nominated GP is not a network GP, you will experience a co-payment. You and your dependants can change your nomination three times every calendar year. Nominate your GP or manage your existing nomination [here](#) or visit www.discovery.co.za > Medical aid > Nominate a primary care GP.

About some of the terms we use in this document

There may be some terms we refer to in the document that you may not be familiar with. Here are the meanings of these terms.

| TERMINOLOGY | DESCRIPTION |
|------------------------------------|---|
| Active ingredient | This is the main substance in a medicine that is responsible for the clinical action on a human body. |
| Benefit year | A benefit year refers to the benefits a member is entitled to during a calendar year, that is to say 1 January to 31 December. This medicine list (formulary) and Chronic Drug Amounts are applicable for this benefit year only. |
| Chronic Disease List (CDL) | A defined list of chronic conditions we cover according to the Prescribed Minimum Benefits. |
| Chronic Drug Amount (CDA) | The Chronic Drug Amount (CDA) is the monthly amount that we pay for a medicine class, subject to a member's plan type. This applies to chronic medicine that is not listed on the medicine list (formulary). |
| Co-payment | This is an amount that you need to pay towards a healthcare service. The amount can vary by the type of covered healthcare service, place of service or if the amount the service provider charges is higher than the rate we cover. |
| Emergency medical condition | An emergency medical condition, also referred to as an emergency, is the sudden and, at the time unexpected onset of a health condition that requires immediate medical and surgical treatment. Failure to provide medical or surgical treatment would result in serious impairment to bodily functions or serious dysfunction of a bodily organ or part or would place the person's life in serious jeopardy. An emergency does not necessarily require a hospital admission. We may ask you for additional information to confirm the emergency. |
| Medicine class | This describes medicines that have similar chemical structures or similar therapeutic effects. |
| NAPPI Code | This is a unique identifier for a given medicine, surgical or consumable product. |
| Prescribed Minimum Benefits (PMBs) | In terms of the Medical Schemes Act of 1998 (Act No. 131 of 1998) and its Regulations, all medical schemes have to cover the costs related to the diagnosis, treatment and care of: <ul style="list-style-type: none"> An emergency medical condition A defined list of 271 diagnoses A defined list of 27 chronic conditions. To access Prescribed Minimum Benefits (PMBs), there are rules that apply: <ul style="list-style-type: none"> Your medical condition must qualify for cover and be part of the defined list of Prescribed Minimum Benefit (PMB) conditions. The treatment needed must match the treatments in the defined benefits. You must use designated service providers (DSPs) in our network. This does not apply in emergencies. However, even in these cases, where appropriate and according to the rules of the Scheme, you may be transferred to a hospital or other service providers in our network, once your condition has stabilised. If you do not use a DSP we will pay up to 80% of the Discovery Health Rate (DHR). You will be responsible for the difference between what we pay and the actual cost of your treatment. If your treatment doesn't meet the above criteria, we will pay according to your plan benefits. |
| Reference Price | <ul style="list-style-type: none"> The Reference Price is the set monthly amount we pay for a medicine category. This applies for medicine that is not listed on the medicine list (formulary). |
